

CANADIAN INSTITUTE FOR THEORETICAL ASTROPHYSICS (CITA)

POSTDOCTORAL FELLOWSHIPS

CITA is a national centre for theoretical astrophysics, gravity and cosmology located at the University of Toronto. The Institute expects to offer several postdoctoral fellowships of three years. The starting date will be September 1, 2019. Funds will be available for travel and other research expenses. A Ph.D. in any field of theoretical astrophysics is required. Fellows are expected to carry out original research in theoretical astrophysics under the general supervision of the permanent faculty whose interests include: early universe, physical cosmology, interstellar matter, FRB's/pulsar scintillometry and compact objects, galaxy, star and planet formation, solar physics, high energy astrophysics and gravitational waves. Applicants will be automatically considered for research associate positions of three to five years duration.

Please apply online at: <https://icat.cita.utoronto.ca/pdf>

Full job ad: <http://www.cita.utoronto.ca/opportunities/post-docs>

We only accept electronic submissions. Applicants will be asked to submit a curriculum vitae, statement of research interests and arrange for three letters of recommendation. The deadline for applications and all letters of recommendation is **November 10, 2018**.

The University of Toronto is strongly committed to diversity within its community and especially welcomes applications from racialized persons / persons of colour, women, Indigenous / Aboriginal People of North America, persons with disabilities, LGBTQ persons, and others who may contribute to the further diversification of ideas.
