

## **Tenure-track Faculty Position Atmospheric Science**

**The Department of Earth and Space Science and Engineering**, York University, invites applications for a tenure-stream position at the Assistant Professor level in the field of Atmospheric Science to commence July 1, 2018. We are seeking outstanding candidates with a strong research focus and the ability to teach Atmospheric Science and will consider candidates who specialize in experimental, theoretical or modelling aspects. Research areas that would complement current activity in the department are climate feedback processes, atmosphere-surface interaction, air quality, atmospheric dynamics and planetary atmospheres. Candidates must demonstrate excellence, or promise of excellence, in teaching and scholarly research and have a Ph.D. in Atmospheric Science or a related field. The successful candidate is expected to develop a strong, externally funded research program, supervise graduate students, and must be eligible for prompt appointment to the Faculty of Graduate Studies

For full position details, see <http://www.yorku.ca/acadjobs>. Applicants should complete the on-line process at <http://lassonde.yorku.ca/new-faculty/>. A complete application includes a cover letter indicating the rank for which the candidate wishes to be considered, a detailed CV, statement of contributions to research and teaching, three sample research publications and contact information for three referees. Complete applications must be received by **March 15, 2018**. York University is an Affirmative Action (AA) employer. The AA Program can be found at <http://www.yorku.ca/acadjobs> or a copy can be obtained by calling the AA office at 416-736-5713. All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents will be given priority.
