

CANADIAN INSTITUTE FOR THEORETICAL ASTROPHYSICS (CITA)

CITA NATIONAL POSTDOCTORAL FELLOWSHIPS

CITA is a national centre for theoretical astrophysics located at the University of Toronto. As part of its mandate to promote research throughout Canada, the Institute provides partial support for postdoctoral fellows working in theoretical astrophysics or closely related fields at Canadian universities other than the University of Toronto, through its National Fellows Program.

The responsibility for identifying and nominating potential CITA National Fellows who will work at a given university lies with the faculty at that university. Only faculty at Canadian universities may submit nominations. The deadline for these nominations is **November 15, 2017** for fellowships to start in September 2018. Please check with the nominating institution for their internal deadlines.

If you are interested in applying for a CITA National Fellowship to be held at a Canadian University, please contact any of the following faculty by email or check the department websites for further application details:
